Invited Presentation

★ Elena Bochkareva, Sergey Korolev, Susan P. Lees-Miller, and Alexey Bochkarev, Presented by Alexey, Sept. 2001, Eukaryotic DNA Replication Meeting, Cold Harbor national Laboratory, New York, “Insight into Phosphorylation Controlled Regulation of Single-Stranded DNA Binding to Replication Protein A Provided by Structure of the RPA Trimerization Core”

In The News Again!

Drs. Paul Weigel and Paul DeAngelis were noted in The Daily Oklahoman, August, 2001. Hyalose LLC, formed by Drs. Paul Weigel and Paul DeAngelis in July 2000, developed and patented a relatively inexpensive, high-quality technique to produce hyaluronic acid—a lubricant of the eyes, skin, joints and muscles that declines with age. Now, Novozymes A/S of Denmark will evaluate Hyalose’s technique to produce the substance to treat arthritis and other joint diseases.

November Birthdays

---

Nov 2, Christina Baron
Nov 2, Richard Cummings
Nov 6, Ron Bowditch
Nov 8, Zhi Zhang
Nov 9, Sarah Washam
Nov 14, Lynn Whitby
Nov 30, Pallabi De

Nov 14, Lynn Whitby
Nov 30, Pallabi De

Way to go!

★ Ann Louise Olson, Ph.D., Selected to chair the OUHSC Graduate College Graduate Faculty Appointments Committee for the 2001—2002 term.

★ Richard Cummings, Ph.D., Awarded "Glue Grant" from NIGMS called the Consortium for Functional Glycomics to Study Cell “Talk”. See more: http://www.nigms.nih.gov/news/releases/paulson.html
