THE FIRST ANNUAL
G. RAINEY WILLIAMS SYMPOSIUM

SEPTEMBER 20-22, 1984

Developed by
Department of Surgery
The University of Oklahoma Health Sciences Center

This program is sponsored in part by the
Oklahoma Chapter of the American College of Surgeons,
the Oklahoma City Surgical Society,
the Oklahoma Surgical Association
and the Tulsa Surgical Society.
Born in Atlanta, Georgia, Dr. G. Rainey Williams and his family moved to Oklahoma City in 1942, a decision that would establish lasting ties with Oklahoma. He attended the University of Texas (Austin) for his undergraduate studies and received an M.D. Degree in 1951 from Northwestern University during which time he was elected to membership in Alpha Omega Alpha Honor Medical Society and served as president of his graduating class.

Dr. Williams received his surgical training at The Johns Hopkins Hospital from 1951 to 1958 under the direction of Dr. Alfred Blalock. This period was interrupted by a tour of duty in the U.S. Army Medical Corps as a Surgeon. Upon completion of his training in Baltimore he was recruited to the Department of Surgery of the University of Oklahoma by the then current chairman Dr. John Schilling. During this illustrious career he rose to the rank of Full Professor in 1963 and in 1974 was appointed as the first John A. Schilling Professor and Head of the Department of Surgery.

The clinical and research interests of Dr. Williams are varied as exemplified by his significant contributions in the treatment of congenital cardiac diseases, extremity reimplantation and reconstruction of complicated extra-hepatic biliary ductal problems. These interests are depicted by Dr. Robert Johnson in this symposium's motif. Dr. Williams was certified by the American Board of Surgery in 1959 and obtained Fellowship in the American College of Surgeons in 1961. His academic accomplishments include membership in a large number of surgical and scientific organizations including the American Surgical Association and the Southern Surgical Association. Dr. Williams has held leadership roles, committee chairmanships and other important positions in many of these organizations including vice-chairmanship of the American Board of Surgery and Presidency of the Southern Surgical Association. On May 15, 1982 the University bestowed its highest honor upon him, The Distinguished Service Citation. His civic activities have included Directorships on the Oklahoma Medical Research Foundation, Oklahoma City Symphony Society, ONEOK, The Commerce Bank (Oklahoma City) and Presidency of the Frontiers of Science Foundation of Oklahoma and the Board of Trustees of Casady School.

Of all these achievements none ranks higher than his selection of Martha Vose as his loving wife. Martha and Rainey have four children: Bruce, Alden, Ellen and Rainey and are the proud grandparents of Richard and Bruce. This symposium is dedicated to his 25 years of service to the University of Oklahoma, to those students, residents and patients who have benefited from his teaching, counsel and surgical excellence.

GENERAL INFORMATION

PURPOSE:  
The Symposium is designed to provide an "in depth" review of many of the controversial subjects in General and Thoracic Surgery. These reviews are being presented by nationally recognized authorities in the field and opportunities for audience participation with the authors during the discussion periods and at the "break outs" are encouraged. The symposium will be recorded and video cassettes of the proceedings will be available for purchase through the Department of Surgery, University of Oklahoma Health Sciences Center.

CREDIT:  
The Office of Continuing Medical Education of the University of Oklahoma College of Medicine designates this continuing medical education activity for sixteen (16) credit hours in Category I of the Physician's Recognition Award of the American Medical Association.

REGISTRATION FEE:  
The registration fee of $300 includes continental breakfasts, luncheons, reception and formal banquet on Thursday evening. The registration fee for residents is $100.
