and the OU Physicians Building. Complimentary self-parking at all other OU Children's
Physicians offices.**

We're on nearly every health plan.

OU Children's Physicians practice as part of OU Physicians, Oklahoma's largest physician group. The group encompasses nearly every child and adult medical specialty. Nearly 150 of these specialists committed their practices to the care of children. The majority of OU Children's Physicians are board-certified in children's specialties. Many provide pediatric-specific services unavailable elsewhere in the state. Some have pioneered surgical procedures or innovations in patient care that are world firsts.

OU Children's Physicians see patients in their offices at the University of Oklahoma Health Sciences Center and in Edmond and other cities around Oklahoma. When hospitalization is necessary, they often admit patients to The Children's Hospital at OU Medical Center. Many children with birth defects, critical injuries or serious diseases who can't be helped elsewhere come to OU Children's Physicians.
