August 22, 1942 - October 2, 2018

Dr. Hal Benton Vorse was born August 22, 1942, at Ft. Riley, KS Army Hospital to Harvey and June Vorse and died October 2, 2018, at his home in Oklahoma City. He graduated from John Marshall H.S. in Oklahoma City in 1960 and from SWOSU in Weatherford in 1964. He received his medical degree from the University of Oklahoma School of Medicine in 1968 and completed his residency in Pediatrics at Oklahoma Children’s Hospital. After spending three years in the US Army in Heidelberg, Germany, he joined the Oklahoma City Clinic in 1974, where he practiced Pediatrics until his health forced him to retire in 1996.

In 1997, Dr. Vorse began a second career in Addiction Medicine at The Referral Center and A Chance To Change Foundation. He left TRC in 2009 and practiced with Medical Therapy Associates, Specialized Outpatient Services and Red Rock Behavioral Services. Dr. Vorse was on the faculty of the OU School of Medicine in the Department of Pediatrics from 1975-1997 and as a volunteer faculty in the Department of Psychiatry and Behavioral Medicine from 2007 to present. In 1986, Dr. Vorse became a friend of Bill W. by the grace of God and the help of countless friends in the 12-step program in Oklahoma and around the world. He was particularly grateful to the men who were willing to share their recovery with him through sponsorship.

He is survived by his wife and best friend, Ces, with whom he shared 34 years of marriage; and his daughters, Shayna Price and husband, Kevin, and Christy Delano and husband, Craig. He was so proud to be grandfather to Charlie Iona and Cy Benton Delano. His in-laws, Charles and Barbara Harris, accepted him into their family and loved him and his family as much as their own. He is also survived by his sister-in-law, Claudia Vorse, and niece, Lindsey Vorse, of Salem, OR. He was preceded in death by his parents, Harvey and Sylvia Vorse and his brothers, Donn and Clayton.

In lieu of flowers, please make contributions to A Chance To Change Foundation, Specialized Outpatient Services or a charity of your choice. If you wish to send flowers, please send them to Children’s Hospital in Dr. Vorse’s memory.
Emergency Communication System (ECS)

The University of Oklahoma’s Emergency Communication System (ECS) enables the University to send time-sensitive notifications about emergency situations including weather alerts to all students, faculty, staff, and identified campus affiliates.

- Urgent messages will be transmitted to all available phone, email and text messaging options listed for your account. The messages will provide information and instructions for action during a given situation.

- The effectiveness of the ECS is dependent on the accuracy of the contact information in the system. Enter a personal cell phone number as your primary cell phone and select the “Text Message” option for this number. Note that you may incur additional charges for text messaging depending on your service provider.

- How does an identified campus affiliate update their ECS information? Identified representatives of affiliated organizations should call HSC Campus Police at (405) 271-4300 to update contact information. The ECS uses contact information from several campus information applications. Information from these applications is transmitted nightly to update the ECS system. This information will not be shared with other entities and it will be kept private and confidential.

- OUHSC Campus Police will test the system three times a year. These messages will be clearly identified as test messages from the Emergency Communication System.
