The Department of Pediatrics at OUHSC is accepting applications for its training program in Academic General Pediatrics. The 2018 Academic General Pediatrics Program begins on July 1, 2018.

Open to pediatric, family medicine, and other post-doctoral clinicians and researchers, the goal of the program is to prepare participants for academic careers as primary care investigators and educators.

Directed by Paul M. Darden, MD, who has over two decades of fellowship mentoring and development experience, this program offers unique opportunities to study a wide variety of research topics across a spectrum of health disciplines. Current fellows have been published in nationally-recognized peer-reviewed journals, and presented at regional and national conferences, and are recipients of national scholarly awards.

**Program:** The Academic General Pediatrics Training Program is a two-year program strongly oriented toward research training. Our trainees participate in resident and medical student training and precept in outpatient clinic and the inpatient wards. They give didactic lectures to the residents and medical students in settings such as noon conferences.

Program participants identify an area of research interest, and receive guidance and mentorship to encourage growth and experience as a researcher. Additionally, trainees have the option to earn a MS in Clinical and Translation Science. Available areas of research include, but are not limited to, research in practice-based research networks, patient safety, health information technology, health care disparities, primary care, tobacco, and obesity research.

**Eligibility:** Post-doctoral degree, if an MD, with an interest in an academic career pediatrics, and must be a US citizen or permanent resident. Women and minority candidates are strongly encouraged to apply.

**How to Apply:** Applicants are required to submit a program application, current CV, personal statement, copies of any publications in press, letters of recommendation from your Residency Program Director and one other faculty member who you have worked with during the past 2 years, and a certified copy of your medical school transcript.

The program application can be downloaded from program website: [https://www.oumedicine.com/department-of-pediatrics/department-sections/general-community-pediatrics/academic-generalist-training-program](https://www.oumedicine.com/department-of-pediatrics/department-sections/general-community-pediatrics/academic-generalist-training-program)

Applications are accepted on a rolling basis. If we would like you to come for an interview, our program coordinator will contact you to arrange a date. Interviews are also conducted on a rolling basis.

Submit completed application to Paul Darden, Program Director via e-mail at: paul-darden@ouhsc.edu. Please include “GENERAL PEDIATRICS APPLICATION” in the subject line. Hard copies of the application can sent to the program mailing address listed below.
