**Grand Rounds: Morbidity & Mortality Conference and Residents’ Journal Club**

*12:00-1:00 (WP 3460)*

Attendance at Journal Club and M&M Conference is limited to full-time Psychiatry faculty, residents, and fellows.

**Thursday, April 6:** (Morbidity & Mortality Conference): “The Borderline Code,” Daniel Pappas, MD, Physician, PGY-I, Psychiatry and Behavioral Sciences. (Moderator: Charles Dukes, MD)

**Thursday, April 20:** (Journal Club): “Attention-Deficit/Hyperactivity Disorder Trajectories from Childhood to Young Adulthood,” Akshay Lokhande, MD, Resident Physician, PGY III, Psychiatry and Behavioral Sciences. (Moderator: Phebe Tucker, MD)

**SUBMISSIONS OR QUESTIONS:** Maggie-Montgomery@ouhsc.edu • (405) 271-5121, Ext. 47639 • www.oumedicine.com/psychiatry
Before You Hit Send...

Do you email patient or research participant PHI to an off-campus email address? If emailing off-campus is necessary and permissible, be sure your email is sent via a secure method and goes only to individuals authorized to receive the PHI. Secure methods include using the patient portal and putting [secure] in the subject line, using the brackets. Messages between ouhsc.edu email addresses are automatically encrypted, as are messages between an ouhsc.edu email address and an HCA email address.

Sending PHI via unsecured email – even to research sponsors or other providers – is a violation of HIPAA policy and can easily lead to a breach. The Office for Civil Rights may impose monetary penalties for HIPAA breaches, especially those that result from deliberate disregard for patient privacy. Check your list of recipients and confirm that the method you are using to send PHI to a non-OUHSC or non-HCA email address is secure by contacting OUP IS or IT Security. Finally, be sure you are NOT using auto-forwarding or redirecting your messages to accounts outside of the University email system.

Relevant HIPAA Policies and forms can be found at the University’s HIPAA website (https://apps.ouhsc.edu/hipaa/).

If you have questions about these or any other HIPAA topics or would like to schedule a department training, please contact any of us. We are eager to help!

Jason Lees, MD and John Zubialde, MD

**SUBMISSIONS OR QUESTIONS:** Maggie-Montgomery@ouhsc.edu • (405) 271-5121, Ext. 47639 • www.oumedicine.com/psychiatry
Emergency Communication System (ECS)

The University of Oklahoma’s Emergency Communication System (ECS) enables the University to send time-sensitive notifications about emergency situations to all students, faculty, staff, and identified campus affiliates.

- Urgent messages will be transmitted to all available phone, email and text messaging options listed for your account. The messages will provide information and instructions for action during a given situation.

- The effectiveness of the ECS is dependent on the accuracy of the contact information in the system. Enter a personal cell phone number as your primary cell phone and select the “Text Message” option for this number. Note that you may incur additional charges for text messaging on your cell phone depending on your service provider.

- How does an identified campus affiliate update their ECS information? Identified representatives of affiliated organizations should call HSC Campus Police at (405) 271-4300 to update contact information. The ECS uses contact information from several campus information applications. Information from these applications is transmitted nightly to update the ECS system. This information will not be shared with other entities and it will be kept private and confidential.

- OUHSC Campus Police will test the system three times a year. These messages will be clearly identified as test messages from the Emergency Communication System.

For further information and to enroll/view/update information:

https://www.ouhsc.edu/ecs/
Faculty, Staff, Patients, and Visitors in the Williams Pavilion

Campus Emergency Telephone: 271-4911

✿ Designated Evacuation Locations

Fire: Second Floor Lobby, Bird Library
Severe Weather: Tunnel between Basic Sciences Medical Building and the Bird Library*
Bomb Threat: College of Dentistry Building

*In case of severe weather after 6:00 pm, go to the center hallway in the lowest level of the Williams Pavilion.

✿ Evacuation of Ambulatory Persons

- Evacuate the building through the nearest available stairwell exit that is safe to use. Do not use elevators.
- Close your computer and take personal belongings.
- Take Emergency Disaster kits (located in each area).
- Close doors as you evacuate but do not lock them.
- Sign in at the designated evacuation location with designated person.
- Do not re-enter building until instructed to do so.

✿ Evacuation of Non-Ambulatory Persons

- Go into the northwest stairwell; if inaccessible, use the southwest stairwell.
- Call OUHSC Police at 271-4911 and designated support or emergency responder personnel will provide assistance.

For further emergency instructions and information, please familiarize yourselves with the Departmental Critical Incident and Safety Policies and Procedures.
