The University of Oklahoma College of Medicine Office of Diversity, Inclusion & Community Engagement is designed to cultivate community within the College of Medicine and to strengthen an inclusive environment for all students, faculty and staff. We hold diversity as a value at the very core of our educational, research, service and health care missions.

Open to all students, faculty and staff, the OU College of Medicine Office of Diversity, Inclusion & Community Engagement facilitates outreach, recruitment, retention and overall success for students traditionally underrepresented in medicine. We have partnered with both faculty and students to ensure that we continue to recognize the richness of our differences as we strive to prepare students to meet the diverse patients they will encounter in medicine. The Diversity Alliance Task Force advocates for diversity within the College of Medicine.

With programs intended to serve underrepresented groups such as SPARK, The Bridge Mentoring Program, Club Scrubs and the Mini Medical School, our commitment to providing a pathway to medical school has never been stronger. We are excited to serve you!
The Office of Diversity, Inclusion and Community Engagement serves as a champion for our students & faculty, our programs & outreach activities, and our Faculty & Student Diversity Alliance councils.

• INCLUSION EXCELLENCE
• RECRUITMENT
• RETENTION
• COMMUNITY ENGAGEMENT
• COMMUNITY OUTREACH

PIPELINE PROGRAMS

In alignment with the University of Oklahoma College of Medicine’s mission, vision, and goals, a number of programs have been created with the specific aim to introduce STEM related fields to students traditionally underrepresented in medicine.

SPARK

SPARK is a free week-long summer program geared toward current high school sophomores and juniors who are interested in pursuing a career in healthcare.

CLUB SCRUBS-TULSA & THE BRIDGE MENTORING PROGRAM- OKC

Club Scrubs introduces high school students to healthcare careers, professionals and agencies that will aid students in exploration of pre-health and pre-medical studies.

SUMMER UNDERGRADUATE RESEARCH PROGRAMS

The Graduate College at the OU Health Sciences Center hosts four summer undergraduate research programs aimed at preparing and encouraging undergraduate students to pursue careers in biomedical research or health-related sciences.
A MESSAGE FROM ADMISSIONS

The College of Medicine is committed to recruiting and maintaining a diverse student body that is reflective of the University of Oklahoma’s core values of diversity and inclusion. The College of Medicine understands the importance of producing leaders in medicine who reflect the diversity of the populations we serve.

In addition, the College of Medicine recognizes that collective diversity positively affects the learning environment and strives to maintain an atmosphere in which individual differences are appreciated and uniqueness is supported and fostered.

We invite you to join us at the College of Medicine in pursuit of our mission of leading healthcare in education, research and patient care. We look forward to receiving your application.
WHAT MAKES OU COLLEGE OF MEDICINE SO UNIQUE?

Our mission is leading healthcare in education, research and patient care. Our goals are uncompromising quality, exceptional service, innovative education, advancing knowledge and institutional strength.

The University of Oklahoma is truly a special place – opening new frontiers in education, research and patient care. The College of Medicine fosters a student-centered culture that values the feedback and contributions of our medical students.
