

The University of Oklahoma College of Medicine Prerequisite Course Information Sheet

Please complete page two of this form and return it with your photos. List course name, department, and course number for courses taken to complete requirements for entrance into The University of Oklahoma College of Medicine. All prerequisites require a "C" grade or better. Non-letter grades are accepted (CLEP and AP) as long as the highest level course is letter graded. If you are currently enrolled in a prerequisite, place a "CC" in the grade column. Fill out appropriate columns relating to quarter systems and/or semester systems.

Note: If, for example, you have a mix of quarters and semesters (i.e. 1 semester of Gen. Chem. and 1 quarter of Gen. Chem.) you will be required to complete one more semester or quarter to satisfy the requirement. Examples are listed below for both semester and quarter systems.
